**DETAILED ACTION**

Applicant's arguments filed on 23<sup>rd</sup> April 2007 with respect to claims 1-13 have been fully considered and are persuasive. Applicants' cancelled the claims 2, 8 and 9 and amended the claims. Accordingly, the examiner has withdrawn the rejection of record.

***Reasons for Allowance***

1. The following is an examiner's statement of reasons for allowance:

Applicants' process for the preparation of a haloalkyldialkylchlorosilane of formula (I) by the hydrosilylation reaction medium and the recovery of the iridium using carbon black is novel and not obvious over the closest prior art (US 6,359,161). The closest prior art does not disclose or suggest each feature recited in independent claim 1. For example, the closest prior art does not disclose or suggest that at the end of the hydrosilylation reaction, the iridium is recovered using carbon black, as recited in claim 1. Claims 1, 3-7, and 10-13 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
